COVID-19 Safety Plan

Effective 1 July 2020

Places of worship

We've developed this COVID-19 Safety Plan to help you create and maintain a safe environment for you, your workers and your congregants.

Complete this plan in consultation with your workers, then share it with them. This will help slow the spread of COVID-19 and reassure your congregants that they can safely visit your business. You may need to update the plan in the future, as restrictions and advice changes – you can make changes to the plan if you've printed or saved it, or you can choose to download and create a new version of the plan.

Businesses must follow the current COVID-19 Public Health Orders, and also manage risks to staff and other people in accordance with Work Health and Safety laws. For more information and specific advice for your industry go to nsw.gov.au

BUSINESS DETAILS

Business name: Jewish Learning Centre
 Plan completed by: Deborah Blackman
 Approved by: Rabbi David Blackman

> REQUIREMENTS FOR BUSINESS

Requirements for your workplace and the actions you will put in place to keep your congregants and workers safe

REQUIREMENTS	ACTIONS
Wellbeing of staff and congregants	
Exclude staff and congregants who are unwell from the premises.	Inform staff and congregants of the need to stay home if unwell.
Provide staff with information and training on COVID-19, including when to get tested, physical distancing and cleaning.	Distribute information to staff.
Make staff aware of their leave entitlements if they are sick or required to self-isolate.	Inform staff of their entitlements.
Display conditions of entry (website, social media, venue entry).	Conditions of entry are read upon registration. Also displayed at venue.

Wellbeing of staff and congregants

Consider offering online services or alternative arrangements for people in high-risk categories (e.g. over 70 years).

Lectures and classes are offered online as an option.

Ensure COVID-19 Safety Plans are in place, where relevant, for:

- Community centres and halls (if hiring out premises)
- Conference and function venues
- Restaurants and cafes.

REQUIREMENTS

ACTIONS

Physical distancing

Capacity must not exceed one visitor per 4 square metres of space (excluding staff).

Furniture is placed with care to allow for and ensure physical distancing.

The maximum number of people who may attend a funeral is one person per 4 square metres. If the service is held at a place of public worship, it can have up to 50 attendees (without the 4 square metre rule) provided non-household contacts can maintain 1.5 metres of physical distance.

Move or remove tables and seating as required, where possible. Household or other close contacts do not need to physically distance.

Tables and seating is arranged accordingly.

Reduce crowding wherever possible and promote physical distancing.

Registration is essential. When capacity is reached, registration is closed.

Where reasonably practical, ensure staff maintain 1.5 metres physical distancing at all times, including at meal breaks and in offices or meeting rooms.

Use telephone or video for essential meetings where practical.

Staff working from home.

Review regular deliveries and request contactless delivery and invoicing where practical.

Have strategies in place to manage gatherings that may occur immediately outside the premises, such as at the conclusion of services.

Congregants are encouraged to leave immediately after the service.

Coordinate with public transport, where reasonably practical, around strategies to minimise COVID-19 risks associated with transportation to and from the venue if crowding on public transport may occur.

Physical distancing

Take measures to ensure drivers of courtesy vehicles minimise close contact with passengers where possible.

High energy dance, as well as singing and wind instruments, can spread COVID-19 if a participant is infected. Additional planning around these activities should be undertaken from a work health and safety perspective, including ensuring 3 metres distance from the audience. Group singing or chanting is particularly high risk and so should continue to be avoided.

Education programs should be conducted in accordance with the NSW Government guidelines on Schools and Childcare. Students do not need to follow strict adult physical distancing guidelines but should follow good hygiene practices. Staff should continue to maintain 1.5m physical distancing from students where practical.

REQUIREMENTS

ACTIONS

Hygiene and cleaning

Adopt good hand hygiene practices.

Hand sanitiser easily available at entry and around the building.

Ensure bathrooms are well stocked with hand soap and paper towels or hand dryers.

Done

Consider modifying religious rites or rituals to avoid direct contact where practical. Where this is not practical, ensure hands are washed before and after each interaction with soap and water or hand sanitiser.

Congregants must sanitise hands before and after touching the Torah and the pulley of the Ark.

Avoid sharing books, drinking cups or other shared objects used during the service such as collection plates. Also consider putting barriers around frequently touched objects of worship, such as shrines, relics or fonts, to prevent people frequently touching these.

Congregants are encouraged to bring their own prayer books.

Clean frequently used indoor hard surface areas (including children's play areas) at least daily with detergent or disinfectant. Clean frequently touched areas and surfaces several times per day.

Chairs and tables used by congregants are frequently sprayed with disinfectant.

Disinfectant solutions need to be maintained at an appropriate strength and used in accordance with the manufacturers' instructions.

Disinfectants which comply with covid safety standards are used at all times.

Staff are to wear gloves when cleaning and wash hands thoroughly before and after with soap and water.

REQUIREMENTS**ACTIONS****Record keeping**

Keep a record of name and a mobile number or email address for all staff, volunteers, visitors and contractors for a period of at least 28 days. For households, one contact is sufficient to support contact tracing. Ensure records are used only for the purposes of tracing COVID-19 infections and are stored confidentially and securely.

Make your staff aware of the COVIDSafe app and its benefits to support contact tracing if required.

Records of attendance are taken at each service/ event.
